

PRODUCT CHANGE NOTIFICATION

DATE: 14 May 2026
PCN #: THR-2026-001

SUBJECT: T200 Thruster propeller material change

PRODUCTS:

All T200 Thruster and T200 Thruster propeller variations.

CHANGE DESCRIPTION:

T200 Thruster propeller material has changed to 100% polycarbonate.

This reverts to the original 100% polycarbonate formulation, reversing a previous change to 10% glass-filled polycarbonate that resulted in increased propeller breakage reports.

CUSTOMER IMPACT:

Reduced occurrence of propeller breakage.

IMPLEMENTATION TIMELINE:

This change has already been implemented in our production lines and is shipping out as existing inventory is depleted.

CONTACT INFORMATION: For questions please contact Blue Robotics Technical Support using the [help center](#).
